

Nano XMD Wash
Onset to Ripening

WHAT IS XMD ?

This product is a refined matrix combination, containing a variety of amino acids, biological enzymes and active peptides to increase sweetness, veraison, brighten colors and increase in size of fruit & vegetables.

- Nutritional, non-toxic, fully water-soluble, no residue, free of pesticides and hormones
- Contains a variety of amino acids and rich biological enzymes, and active peptides
- Mainly used in the middle and/or later stages of crop growth, making crops mature in advance, and promotes rooting and flowering, increasing crop color and sweetness.
